	<p>I can evaluate a topic by presenting the positives and negatives before reaching a conclusion. I can defend my judgement using a variety of evidenced points.</p> <p><i>In order to answer questions similar to 1, 3 and 4 use the following structure:</i></p> <ul style="list-style-type: none"> <i>Arguments that support the statement. Why is it correct?</i> <i>Arguments against the statement? Why is it incorrect? Suggest a minimum of two alternative options explaining how they would impact differently.</i> <i>Overall do you agree or disagree with the statement and why? Use evidence to back up your points.</i> 	<ol style="list-style-type: none"> <i>The social benefits of our coastline are more important than the economic benefits. To what extent do you agree with this statement?</i> Design a coastal defence structure to protect Britain's coastline from erosion. Annotate your design to clearly explain how it will protect the coastline. <i>Sea walls are the most effective type of coastal defence structure. To what extent do you agree with this statement?</i> <i>Managed retreat is the most effective type of coastal defence structure. To what extent do you agree with this statement?</i> Create a coastal defence proposal to protect Happisburgh from erosion. You must clearly show how you have taken into consideration the needs of all residents (home owners, B&B owners, financial advisors and conservationists).
	<p>I can compare two or more processes/factors using detailed evidence to back up my comparison.
